Leilong --RX smoke pipe cleaning and inspection robot technology parameters

Dimensions: 330mm (length) * 270mm (wide) x 200mm (high)

Weight: 10Kg; power: 120W

Input voltage: AC220V; robot working voltage: DC24V,

Stroke: standard with 20 meters (waterproof cable), according to the requirements of extended to 100 meters.

Movement: 4*4 driver (strong permanent magnetic wheel drive);

The radius of rotation: zero radius (in situ rotated 360 °)

Speed: 0--10 M / min (stepless)

Camera and lighting: 520 lines of industrial grade color camera, automatic level of 360 ° / 90 ° pitch

Rotation; lighting: 2*3W light type light LED lighting (low temperature long life LED source)

Waterproof grade: IP66 (can effectively prevent the harm from all directions of the high pressure water jet)

Video: 500G the longest continuous recording time: 6 months

Display: 3.5 inch screen high-definition LCD display, synchronous monitoring and recording system.

Standard industrial design: safe walking program control system complete, line overload, the original device

Safety protection system
Manufacturers

Shanghai Jin zhi Nuan Electrical Equipment Engineering Co., Ltd.

Shanghai leiLong Industrial Automation Equipment Co., Ltd.

Address

708 unit 7 Floor 228 Mei Yuan Road (Enterprise Square) Shanghai China
